SIGNIFICANT ITEMSa. Progress Report on Special Air Force Training Program.

25X1 This course is now in its sixth and last week and will be completed as scheduled on Friday 8 July. The chief instructor and the undersigned met with [REDACTED] A&E Staff, on Friday 1 July to discuss results of the test batteries furnished 14 of the 15 students and compared these results with student performance during the course. In almost every instance our impressions and evaluations of each student coincided with the test results, and it is believed that when all of these have been written up a fairly accurate evaluation of each student will be available.
